SCHWEIZERISCHE GESELLSCHAFT FÜR PATHOLOGIE  
SWISS SOCIETY OF PATHOLOGY

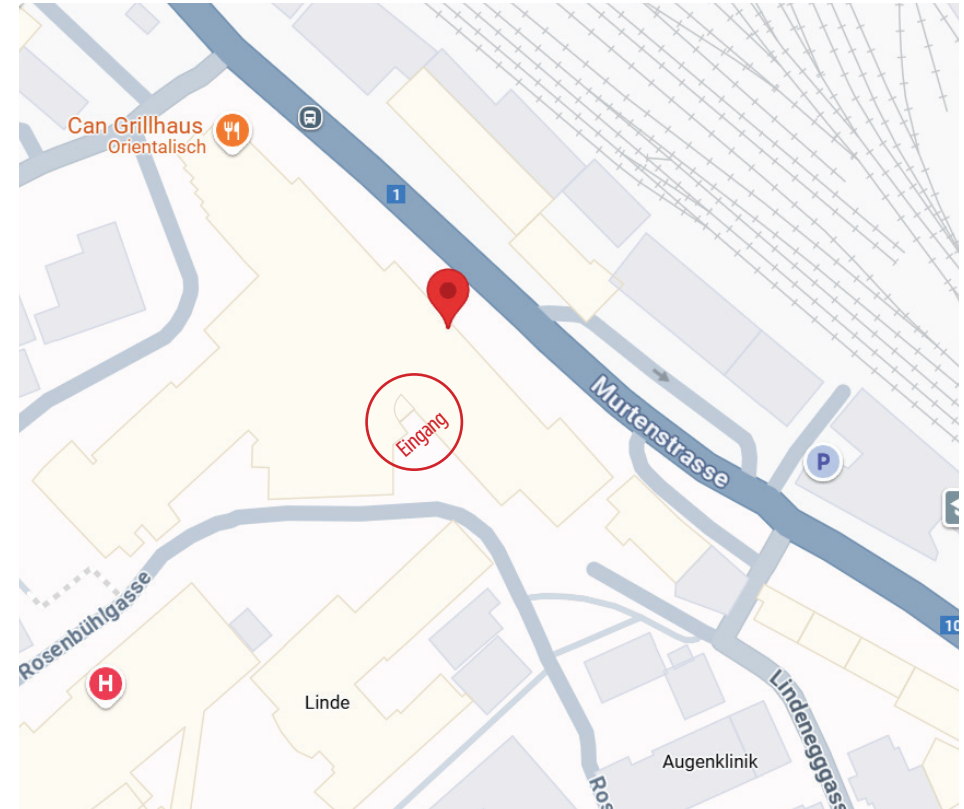

# SLIDE SEMINAR – SGPATH-SSPATH/IAP

**Saturday, January 24, 2026**

**Pathology in Switzerland 2026- What you need to know**

## LOCATION

**Venue:** Langhans Auditorium, Institute of Tissue Medicine and Pathology  
Murtenstrasse 31, 3008 Bern

[www.med-patho.ch](http://www.med-patho.ch)

The practice of pathology in Switzerland is entering a period of major transition. From the IVD-R regulation to the shift from TARMED to TARDOC, the introduction of Entrustable Professional Activities (EPAs) in resident training to the launch of a new case interaction platform for the society, the year 2026 will entail substantial changes that will affect all of us in our daily practice, training, continuous education, and the way we deliver pathology services in the Swiss healthcare system.

Because all these complex changes are happening at the same time, the upcoming seminar is dedicated to covering them in depth. **This is a one-time educational event that departs from the usual medical content to focus more on these overarching regulatory, financial and educational transformations.** It is a unique opportunity to gain a clear overview of what lies ahead and to prepare together, as a professional community, for the challenges and opportunities of the coming years.

## PROGRAM: JANUARY 24, 2026
